

GGGCAGTTAG

The image displays a DNA double helix structure. The backbone is represented by a yellow line, and the rungs are represented by green lines. The bases are labeled with the sequence GGCAGTTAG. The bases are color-coded: G is yellow, C is blue, A is green, and T is red. The sequence is shown in a stylized font, with the bases G, G, C, A, G, T, T, A, G arranged horizontally. The bases are connected by horizontal lines, forming a double helix structure. The bases are color-coded: G is yellow, C is blue, A is green, and T is red.
